

UFB ULTRA PUMP

BILLIONS OF CONCENTRATED UFB IN AN INSTANT!

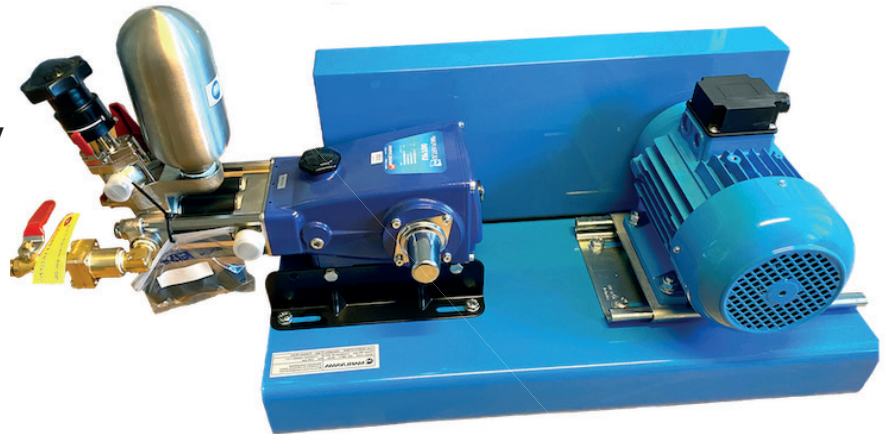

Increases your profitability

Provides increased growth of fish, shellfish and causes plants to grow faster and get an increased harvest

Eco-friendly

No need for additives, everything is 100% environmentally friendly!

UP400M UFB PUMP ULTRAFINE BUBBLE REVOLUTION

The UFB Ultra Pump can generate hundreds of millions of ultra-high concentrations of UFB in just 1 cc of water. The UFB Ultra Pump instantly generates a high-concentration UFB, and can be used without the need for long-time circulation operations. The UP400M is the perfect growth-system-solution for the salmon and fish farming industry.

Some benefits

- Achieve higher business-growt-results
- Physically destroys bacteria and viruses
- Penetrates even the smallest and deepest cracks
- Bio activation of living things
- Various gases contained by bubbles

Superior Japanese technology

No other UFB pumps on the market today have the same capacity and quality. Our UFB pumps are patented and come with a 5-year warranty!

PRODUCT SPECIFICATIONS

Product name	UP400M
Type of product	UFB PUMP
Dimensions (mm)	443x242x361
Power (kW)	2,2
Water Absorption (L/min)	32 (at 1100 rpm)
Pressure (Mpa)	3
Quantify UFB/min	8 trillion
Weight (net)	49,0 kg
Accesories	Suction hose

Water discharge hose, Suction strainer assy, V-pulley
